

Kejimikujik National Park Seaside

Listing URL: <https://www.regionofqueens.com/master-directory/culture-heritage/kejimikujik-national-park-seaside>

Kejimikujik National Park Seaside may take your breath away. Either follow the 5.2 kilometre return Harbour Rocks trail to the white sand beach or take the 8.7 kilometre return Port Joli Head trail, which loops along the shoreline to Harbour Rocks.

At the water's edge, look for seals lounging on the rocks visible from shore. The beach is also one of the last nesting beaches of the endangered piping plover.
