

ENGINEERING TECHNOLOGIST - ENGINEERING AND PUBLIC WORKS

Region of Queens Municipality's Engineering & Public Works Department is currently seeking applications from a highly organized, detail-oriented and dynamic individual interested in joining our team in the position of **Engineering Technologist**.

The position of Engineering Technologist is a hands-on position involving the oversight and management of the Municipality's assets, providing management and supervision of Engineering and Public Works Department staff. The Engineering Technologist is accountable to the Director of Engineering and Public Works for technical and management support of all municipal infrastructure and facilities to prolong the use of and ongoing maintenance of current infrastructure. A complete job description can be obtained by contacting the undersigned.

The Ideal Candidate will:

- Be a graduate of a recognized post-secondary institution in Civil Engineering Technology and registered as a Certified Engineering Technologist (CET).
- Three to five years related experience.
- A strong understanding of municipal infrastructure and experience in the supervision of employees.
- Strong understanding of Civil 3D and ArcGIS systems
- Exceptional written and oral communication skills.

With a strong focus on work-life balance, Region of Queens Municipality offers a competitive benefits package, Registered Pension Plan, diverse career opportunities, modern facilities, and an innovative, continuous improvement culture.

The salary for this position is \$79 826.82. We thank all applicants for their interest; however, only those selected for an interview will be contacted. You may submit a detailed cover letter and resume to:
