FUNDING PRINCIPLES

Any capital vehicle purchase balance owing over the fixed amounts listed below will be the responsibility of the Fire Department. The Region's funding will not exceed the following for vehicle purchases:

- b) Aerial Trucks - maximum \$275,000.00

If the Region or Fire Department's financial viability changes, the financial funding will be re-examined and adjusted accordingly to ensure the Region's financial security.

GRANTS

All monies offered by the Region are provided to all Fire Departments upon completion and submission of the Annual Registration form and supporting financial documentation which shall be submitted by the scheduled deadlines in order to receive funding in a timely manner.

For greater clarity budget estimates shall be submitted prior to May's installment payment being issued, and the financial statement signed by an independent reviewer, who is not a fire department member, spouse or relative of a member, shall be submitted prior to the July payment being issued each year.

The Region of Queens will provide an operating general grant to departments to assist in operating costs.

The Region also provides additional funding to Fire Departments through the general tax rate, for general operating costs which are as follows:

- a) Medical Insurance;
- b) Liability Insurance;
- c) Workers Compensation;
- d) Operating Equipment;
- e) Mutual Aid;

- f) Dispatching Services; and

All operational grant funding will be based on the equivalent of 5 cents on the tax rate each year fiscal year, as calculated by the Finance Department and distributed between departments based on a formula agreed upon by all Chiefs.

Grant funding will be subject to a review at any time by the Region to ensure viability and shall be reviewed at least every ten (10) years.

Monies provided for the purchase of operating equipment or the operating general grant may be used for capital or operating equipment needs and should be reflected in the annual financial statement. Any building maintenance or capital repairs shall be the responsibility of the Fire Department to fund.

CAPITAL VEHICLE FLEET RESERVE

The Region shall establish a "fire department fleet reserve" that shall be utilized to repay the debt incurred by individual fire departments for the purchase of a capital vehicle.

Pumpers, pumper tankers, one aerial vehicle, rescue and utility vehicles will constitute a capital vehicle purchase; all other vehicle purchases remain the full responsibility of each individual fire department.

Upon purchase of a new capital vehicle, one capital vehicle shall be taken out of service and notification provided to the Region, subject to the retention of one surplus vehicle which will be held for the use of any fire department who may have an unexpected need.

Capital vehicle loans that existed prior to this policy for Liverpool Fire Department will have the yearly payment allocation paid through this new fire department fleet reserve until the debt has been eliminated.

All borrowing of monies and ownership of capital vehicles remain the direct responsibility of fire departments.

Should a financial institution require the Region of Queens to guarantee the fire

departments maximum contribution of \$275,000, each guarantee shall be subject to Ministerial approval through Municipal Affairs as per Section 88(3) of the Municipal Government Act and this approval shall be known prior to any borrowing taking effect.
