<p>Re: At the December 2024 JOHS meeting, it was the consensus of the Committee to make the following request:</p> <p>5.1 Request to Management Discussion: Safe Work Practice – Disposal of Sharp Objects Consensus of the Committee to request Management Team to draft a Safe Work Practice for the Disposal of Sharp Objects.</p>	
<p>Request: Draft SWP for Disposal of Sharp Objects for all departments of the RQM for review at the next JOHSC meeting using the JP-HILL-17 and addition of section from SWP-Hill-01.</p> <p>1) <i>JP-HILL-17:</i> <i>SAFE JOB PROCEDURE DISPOSING OF SHARP OBJECTS AND BROKEN GLASS</i> <i>EQUIPMENT REQUIRED: Gloves, broom and dustpan, small disposable container (milk carton, small cardboard box), packing tape, marker</i> <i>PROCEDURE:</i></p> <ol style="list-style-type: none"> 1. <i>When disposing of sharp edges, objects, or broken glass use gloves to prevent injury.</i> 2. <i>Secure sharp edges (i.e. can lids, by placing inside can and pinching can closed).</i> 3. <i>Sweep up any broken glass with broom and dustpan. Ensure all pieces are cleaned up. Dispose of broken glass in a milk carton or small box. Close box and tape securely with packing tape.</i> 4. <i>Label box with BROKEN GLASS.</i> 5. <i>Dispose sharp edges and broken glass in the appropriate receptacle.</i> <p>2) <i>Section from SWP-Hill-01 on Disposal:</i> <i>Dispose of garbage and recycling safely and securely. Always look in receptacles before disposing garbage and recycling. Do not push garbage down into receptacles. Empty receptacles when ¾ full. Before disposing of materials with sharp edges, cover and secure sharp edges or enclose in a container and seal to prevent injury.</i></p>	

Reason(s) for Request:

It was the consensus of the committee that sharp object disposal is something that each department may be exposed to and need to know how to properly dispose of. This would not be the same as sharps or needles as this requires a separate JP & SWP.
